

NI Product Wishlist & Gap Analysis

Building out NI's catalog to a full pharmacy supplement selection. This is a working doc — check things off as we decide to add, skip, or defer.

Current active SKUs: 22 across 4 manufacturers (NuMedica, Microbiome Labs, All-In Nutritionals, Iconic Beauty Labs) **Zoom-specific requests:** 3 (called out below) **Estimated full-catalog target:** ~80–120 SKUs

Immediate: Zoom Pharmacy requests

Add these before broader catalog expansion — Zoom is actively recommending them:

Product	Manufacturer	Rationale	Notes
Nitric Oxide (lozenges + capsules)	Berkeley Life	Cardio / circulation / BP support	Berkeley Life is a direct-account brand; account setup required. Lozenges are the flagship.
D3/K2 10,000 IU	NuMedica or Metagenics	Zoom protocol: 10K IU first month → 5K maintenance . NI already carries the 5K version (D3K25000) but not the loading dose.	NuMedica has a 10K D3 (with or without K2); worth pricing both.
Strengtia	Apex Energetics	Hypoallergenic, dairy-free 100 billion CFU probiotic. Different niche than what we carry — practitioner-preferred for sensitive patients.	Apex Energetics is a practitioner-only line; account setup required.

Foundational Vitamins & Minerals

Have: - [x] B-Balanced (activated B-complex) — PINM236 - [x] Vit A 25,000 IU — PINM586 - [x] D3K25000 (5,000 IU D3 + 200 mcg K2) — PINM980 - [x] E-Balanced (tocopherol blend) — PINM112 - [x] Max Multi (herb-free, iron-free) — PINM250 - [x] Absorbable Zinc (30 mg TRAACS) — PINM148 - [x] Magnesium Glycinate 600 mg — MAGGLYCNI - [x] Organic Iodine drops — PINM185

Gaps (high priority): - [] **Vitamin C 500–1000 mg** — glaring hole; every pharmacy carries this - [] **D3/K2 10,000 IU** (*Zoom ask*) - [] **Vitamin D3 5,000 IU standalone** (no K2) — for patients who don't tolerate K2 or take warfarin - [] **Vitamin B12 sublingual** (methylcobalamin 1,000 or 5,000 mcg) - [] **Vitamin K2 standalone** (MK-7 100–200 mcg) — bone/cardio - [] **Selenium 200 mcg** — thyroid, antioxidant - [] **Iron bisglycinate** (gentle chelated form) — for anemia - [] **Calcium standalone** (citrate or malate) — for patients who don't need the full OsteoPlus formula - [] **Magnesium citrate** — different form; often used for constipation - [] **Magnesium threonate** — cognitive/brain (Magtein)

Life-Stage Multivitamins

Have: - [x] Max Multi (herb-free, iron-free — men + post-menopausal women)

Gaps: - [] **Prenatal multi** (with methylfolate + iron + choline) — pharmacy staple - [] **Kids gummy multi** - [] **Senior multi 50+** (elevated B12, D3, no iron) - [] **Women's multi with iron** (pre-menopausal) - [] **Men's multi** (with saw palmetto or lycopene)

Probiotics & Digestive

Have: - [x] FemFlora Balance (vaginal + UTI) — ML001 - [x] FloraRestore (during antibiotics) — ML003 - [x] Ultra Spore Biotic (shelf-stable daily) — ML002 - [x] Ultra Flora (50B CFU high potency) — PINM555 - [x] Ultra Pre Powder (prebiotic) — ML004 - [x] GastroGuard (reflux/H. pylori) — ML005

Gaps: - [] **Strengtia** (*Zoom ask* — *Apex Energetics, hypoallergenic 100B*) - [] **Kids chewable probiotic** - [] **Broad-spectrum digestive enzymes** - [] **Betaine HCl** — for low stomach acid (HypoHCl) - [] **L-glutamine powder** — gut lining repair - [] **Slippery elm / Marshmallow root** — GI soothing - [] **S. boulardii standalone** (if patients want just the yeast probiotic)

Cardiovascular

Have: - [x] EPADHA950 (Omega-3, 430 mg EPA + 390 mg DHA) — PINM035 - [x] Red Yeast Rice (905 mg citrinin-free) — PINM052 - [x] Ubiquinol 100 mg — PINM234

Gaps: - [] **Berkeley Life Nitric Oxide** (*Zoom ask*) - [] **Nattokinase 2,000 FU** — clotting / circulation - [] **Berberine 500 mg** — cholesterol + blood sugar (cross-listed with metabolic) - [] **Vegan/Algal Omega-3** — for vegetarian patients - [] **Vitamin K2 MK-7 standalone** (arterial calcium diversion — cross-listed above) - [] **CoQ10 (ubiquinone) standalone** — cheaper alternative to Ubiquinol for younger patients

Immune Support

Have: *(nothing dedicated — big gap)*

Gaps: - [] **Vitamin C 1,000 mg** (cross-listed foundational) - [] **Elderberry syrup + capsules** (adult + kids strengths) - [] **Elderberry gummies** (adult + kids) - [] **Quercetin + Bromelain 500 mg** - [] **NAC (N-Acetyl Cysteine) 600 mg** — respiratory + antioxidant - [] **Zinc lozenges** (throat/cold — different from daily zinc) - [] **Astragalus** — immune adaptogen - [] **Beta-glucan** — immune modulator - [] **Monolaurin** — antimicrobial

Hormone / Women's Health

Have: - [x] DIM 150 mg (with curcumin) — PINM025 - [x] DHEA 5 mg — PINM331 - [x] DHEA 25 mg — PINM074 - [x] FemFlora Balance (probiotic — cross-listed)

Gaps: - [] **Progesterone cream 20 mg/pump** (topical — bioidentical) - [] **Vitex (chasteberry)** — cycle regulation, PMS - [] **Black cohosh** — menopausal support - [] **Evening primrose oil (EPO)** — PMS, skin - [] **Maca root** — libido, energy - [] **Wild yam** — hormone precursor - [] **Iron with vitamin C** — for menstruating women

Hormone / Men's Health

Have: - [x] DHEA (both strengths — cross-listed) - [x] DIM — cross-listed - [x] Absorbable Zinc — cross-listed

Gaps: - [] **Saw palmetto 320 mg** — prostate/BPH - [] **Tongkat ali (Longjack)** — testosterone support - [] **Fenugreek** — testosterone / libido - [] **Lycopene** — prostate antioxidant - [] **Beta-sitosterol** — prostate

Thyroid Support

Have: - [x] Organic Iodine drops

Gaps: - [] **Selenium 200 mcg** — Hashimoto's / T4→T3 conversion (cross-listed) - [] **L-tyrosine 500 mg** — T4 precursor - [] **Ashwagandha KSM-66 600 mg** — thyroid + adrenal (cross-listed sleep/stress) - [] **Iodoral** or higher-dose iodine tablet

Sleep / Stress / Mood — high demand, whole category missing

Gaps: - [] **Melatonin 1 mg / 3 mg / 5 mg / 10 mg** (multiple SKUs — pharmacy staple) - [] **Melatonin liquid drops** (kids + adults who dislike pills) - [] **L-theanine 200 mg** — calm without drowsy - [] **Ashwagandha KSM-66 600 mg** — adrenal/cortisol - [] **Rhodiola 500 mg** — energy + stress - [] **5-HTP 100 mg** — mood / sleep precursor - [] **GABA 500 mg** — sleep / anxiety - [] **Passionflower** — anxiety - [] **SAMe 400 mg** — mood - [] **Magnesium glycinate** (cross-listed — the "which mag for sleep" answer)

Cognitive / Brain

Gaps: - [] **Lion's mane 500–1,000 mg** — nerve/cognitive - [] **Bacopa (BacoMind) 300 mg** — memory - [] **Phosphatidylserine 100 mg** — memory - [] **Alpha-GPC 300 mg** or **CDP-choline** — choline for acetylcholine - [] **Ginkgo biloba 120 mg** — circulation to brain - [] **Magnesium threonate** (cross-listed foundational) - [] **Bacopa/L-theanine/L-tyrosine combo** (focus stack)

Joint / Musculoskeletal

Have: - [x] OsteoPlus (MCHC bone builder) — PINM061

Gaps: - [] **Glucosamine + Chondroitin + MSM** combo — joint staple - [] **Turmeric/Curcumin standalone** (95% curcuminoids + BioPerine or Meriva/Longvida) - [] **Boswellia extract** — anti-inflammatory - [] **Collagen Type II** (UC-II 40 mg) — joint-specific - [] **Hyaluronic acid oral** — joint/skin - [] **Bromelain** — inflammation

Antioxidants / Detox

Gaps: - [] **Glutathione (liposomal)** — HIGH DEMAND, hard to source quality - [] **NAC 600 mg** — glutathione precursor (cross-listed immune) - [] **Alpha-lipoic acid 300–600 mg** — glucose + nerve - [] **Milk thistle (silymarin) 250 mg** — liver support - [] **Resveratrol 250 mg** - [] **Astaxanthin 12 mg** — eye + skin antioxidant

Metabolic / Blood Sugar

Gaps: - [] **Berberine 500 mg** (cross-listed cardio — one of the best-selling supplements of the last 3 yrs) - [] **Chromium picolinate 200 mcg** - [] **Cinnamon extract 500 mg** - [] **Alpha-lipoic acid** (cross-listed)

- [] **Bitter melon** — traditional glucose

Weight Management

Gaps: - [] **Green tea extract (EGCG)** 500 mg - [] **L-carnitine** 500 mg - [] **CLA** 1,000 mg (dying category, but still asked for) - [] **Berberine** (cross-listed metabolic — legitimate weight-loss support)

Sports / Recovery

Gaps: - [] **Creatine monohydrate 5 g** (Creapure micronized) - [] **BCAAs 2:1:1 powder** - [] **L-glutamine 5 g** (cross-listed gut) - [] **Electrolyte powder** (LMNT-style, no sugar) - [] **Whey protein isolate** (maybe — commodity, low margin)

Skin / Hair / Nails

Have: - [x] RECODE GLOW CREAM (peptide firming — topical)

Gaps: - [] **Collagen peptides powder** (Type I + III, unflavored or vanilla) - [] **Biotin 10,000 mcg** - [] **Hair/Skin/Nails multivitamin** (biotin + silica + zinc + C) - [] **Silica** — hair/nail strength - [] **Marine collagen** — anti-aging alternative

Kids Specialty — whole category missing

Gaps: - [] **Kids multivitamin gummy** - [] **Kids vitamin D3** (drops or gummies) - [] **Kids probiotic** (chewable or powder) - [] **Kids elderberry syrup/gummies** - [] **Kids omega-3** (chewable or liquid) - [] **Kids melatonin 1 mg gummy**

Suggested manufacturers for gap fills

Where possible, lean on our existing vendor relationships to reduce onboarding overhead:

Brand	Existing?	Gaps they cover
NuMedica	Yes (14 SKUs)	Most missing foundation: Vit C, Selenium, Melatonin, Glucosamine, Turmeric, NAC, L-theanine, Ashwagandha, Elderberry, Berberine, Kids line
Microbiome Labs	Yes (5 SKUs)	MegaOmega (fish oil), MegalgG2000 (immune), MegaMucosa (gut lining), MegaQuinCC (quercetin), MegaGuard extras
Berkeley Life	No — Zoom ask	Nitric oxide category (lozenges, capsules, professional)
Apex Energetics	No — Zoom ask	Strengtia + strong practitioner line (Kavinace for sleep, Adreacor for adrenal, GlutaClear)
Metagenics	No	UltraFlora line, D3 5K+K2, Estrium, PhytoMulti, Ultra Meal
Xymogen	No	Endocrine/hormone line (OptiFem, ProstaThera), MedCaps DPO, Adren-All
Designs for Health	No	Broad practitioner catalog; strong methylation line
Klaire Labs	No	Practitioner probiotics (Ther-Biotic line — Complete, Detox Support, Kids)
Nordic Naturals	No	Fish oil gold standard, Kids DHA, Prenatal DHA
Thorne	No	Broad; Basic Nutrients multi, Basic Prenatal, Curcumin Phytosome
Pure Encapsulations	No	Hypoallergenic broad line; O.N.E. Multivitamin, PureLean line

Summary tally

Category	Have	Gap	Priority
Foundational Vits/Minerals	8	10	HIGH

Suggested rollout

Phase 1 — Fill foundation + Zoom asks (Q4 2026) Vitamin C, D3/K2 10K IU (*Zoom*), D3 standalone, B12 sublingual, Melatonin (multi-strength), L-theanine, Ashwagandha, Berkeley Life Nitric Oxide (*Zoom*), Strengthia (*Zoom*). Target: **~10 new SKUs**.

Phase 2 — Immune + Life-Stage Multis (Q1 2027) Elderberry, Quercetin, NAC, Glutathione, Zinc lozenges. Prenatal, Kids multi, Kids D3, Kids probiotic, Senior multi. Target: **~10 new SKUs**.

Phase 3 — Specialty categories (Q2 2027) Cognitive (Lion's mane, Bacopa, Alpha-GPC), Joint (Glucosamine/Chondroitin/MSM, Turmeric), Metabolic (Berberine, Chromium), Sports (Creatine, Electrolytes). Fill women's/men's hormone gaps. Target: **~15 new SKUs**.

After all three phases: **~57 total SKUs** — solid mid-catalog for an independent pharmacy supplement rack.

Living doc — check items off as decisions are made. New Zoom or team requests should be added under the appropriate category with (requested by X) notation for tracking.
